About Me

I am a highly motivated and results-oriented Biomedical Engineer with a strong academic background and a passion for leveraging data analysis and machine learning to drive innovation in healthcare technology. I have valuable experience in data analysis and signal processing and I am constantly seeking opportunities to expand my knowledge and expertise in this rapidly evolving field.

Education

2019 – 2023

Master of Science in Biomedical Engineering - Bioelectric

Khajeh Nasir Toosi University of Technology (KNTU)
GPA: 3.27/4 - 16.1/20
Thesis: Sleep Apnea Classification using Deep Learning Algorithm
Supervisor: Dr. Maryam Mohebbi

2013 – 2018

Bachelor of Science in Electrical Engineering - Electronics

Bu-Ali Sina University (BASU)
GPA: 3.1/4 - 15.53/20
Thesis: Smart Cards
Supervisor: Dr. Soheil Ganjefar

Work Experience

01/2024 - 05/2024 Data Analyst Intern, Worked on data analysis of home monitoring data, **Benete, Turku**

06/2023 - 07/2023 Data Analyst Intern, Worked on signal processing and data analysis as part of "Computing in Cardiology 2023" challenge, **Department of Computing, University of Turku**

Skills

Programming Language: Python, MATLAB

Deep Learning Frameworks: Keras, Tensorflow

Data Science: Data Analytics, Data Visualization

Selected Courses

University

Medical imaging systems

Digital signal processing

Biological signal processing

Medical instrumentation

Finnish Language

Finnish language integration course, 1.2023-9.2023, **Spring House**

Finnish language for immigrants, 9.2023-11.2023, **Turun ammatti-instituutti**

Finnish language and culture studies, 1.2024-6.2024, **Paasikivi-Opisto**

Awards and Honors

Received Iranian national graduate full scholarship

Ranked within top 5% among more than 40,000 participants in Iranian university entrance exam for Master's degree

Language Proficiency

Persian: Native
Finnish: Intermediate (Yki Test: 3/4)
English: Intermediate

Hobbies and Interests

Sport
CrossFit
Cycling
Ice skating
Ping-Pong
